

What is a “Skating Skills Combo Class”?

The Skating Skills Combo Class is an additional class offered only for those who have passed either Basic 6 or Adult 6 or higher badge levels.

This class does not have a badge associated with it but gives skaters who are working on the free skate badge levels more opportunity to perfect edges, turns, and other moves taught at their level. The class focuses on Skating Skills Test elements, the mastery of which are required of all figure skaters who decide to continue into more serious competitive figure skating beyond group lessons.

On Thursdays the Skating Skills portion of the class takes place at 4:15pm and then skaters report to their regular level free skate class at 4:50pm. Skaters interested in this offering on Thursdays should register for the **“Skating Skills Extended Combo Class”**.

On Saturdays the Skating Skills portion of the class takes the place during what would have been the skaters’ 30-minute practice time at 9:00am. At 9:30am, the skaters will report to their regular free skate level class. Skaters interested in this offering should register for the **“Skating Skills Combo Class”**.

The **“Skating Skills Extended Combo Class”** is also offered during the Summer Session on Tuesday evenings at 5:30pm and works the same as the “Skating Skills Extended Combo Class” described above.

****There is no practice time assigned to skaters who take either the Combo Class or the Extended Combo Class. We recommend that skaters who take this option find a separate time to practice either during the Saturday Morning Basic Skills Practice Session, a North Shore Skating Club Senior Club Free Skating Session or a Burbank Ice Arena Public Skating Session. All of these practice times would be at an additional charge.*
